

## Katrina Kaif's sex tape scandal!

Bollywood babe Katrina Kaif is furious, and we can understand why! The latest buzz from B-town is that there is a pornographic video out there that claims that the popular actress is the movie's star!

Naturally the pretty actress denies the allegations: "The video is disgusting and the girl clearly doesn't even look like me. There's no room for any speculation whatsoever. How can you even call her my lookalike? The girl's face is completely different! I think it's ridiculous to even talk about it," a very upset Katrina told reporters when she was asked about it. It's clear that the actress is angry and we don't blame her!

The porn video shows a girl, supposedly a Katrina Kaif look-alike, in ponytails and jewelry who takes her clothes off until she is only wearing a bikini. While Katrina often wears ponytails and has been seen posing for pics in a bikini before, we doubt that the *Ajab Prem Ki Ghazab Kahani* actress would ever agree to star in a pornographic movie!

It's not that Katrina shies away from being sexy on the silver screen; the New York actress recently shot the hot number "Sheela Ki Jawani" for Farah Khan's new movie *Tees Maar Khan*, taking the summer heat to a whole new level! Sporting a revealing ghagra choli, Kat busts out some sexy belly dance moves for the number "Sheela Ki Jawani" and we bet fans will like it!

"It'd be one of the raunchiest songs I have ever shot. Farah is extremely confident about the song and has promised me it will be one of the biggest hits of this year!" Kat said of the raunchy clip.

But to suggest that the actress would star in a pornographic movie? Katrina said it best herself; "There's no room for any speculation whatsoever."
